Thing is that I have been thinking about installing the 2007 version of Office that I have had but never installed yet for above reasons.. I have been running Office 97 pro on Windows XP because I do not want to loose the shortcut bar that came with 97.. Today, several people were logged and working when the program started hanging Now, no one can even login - the program hangs before the login prompt.

1. word maximize window shortcut
2. word maximized window
3. ms word maximize shortcut

Question is can I install the 2007 version over the 97 version and have it update the programs but keep the shortcut bar?? I know there are probably other shortcut bars or whatever out there but as I asked I would rather keep the 97 one if possible.. com That depends on what you mean by 'easily';-) CRM out of the box will provide a great, flexible platform to quickly develop a robust business solution.
